Product @ PhonePe | Scaling FinTech Ecosystems | AI, Growth,
Monetization & Platform Architecture | Driving 0-to-1 Innovation & 1-
to-100 Growth | IIM Indore (MBA) | Neoma Business School | VNIT,
Nagpur (B.Tech, CSE)

Bengaluru, Karnataka, India

Summary

I build and scale high-impact, data-driven products at the intersection of FinTech, WealthTech, and E-commerce. With a strong engineering foundation and over 4 years of experience driving platform-level growth at India's leading digital payments ecosystem, I specialize in transforming complex ecosystem challenges into seamless, profitable user journeys. My core expertise lies in platform architecture, monetization strategy, and deploying intelligent personalization to drive revenue and user acquisition. I have successfully managed a \$100 Cr/year monetization portfolio and architected cross-vertical incentivization strategies spanning Payments, Payment Gateways, Quick Commerce, and App Store ecosystems. Beyond traditional product management, I am deeply invested in building multi-agent AI systems and autonomous workflows to supercharge product delivery and operational efficiency. Whether I am conceptualizing a 0-to-1 WealthTech platform or optimizing a \$1000+ Cr annual marketing budget through algorithmic targeting, my focus remains on building scalable infrastructure that delivers tangible business ROI and exceptional customer experiences. Core Competencies: Platform Architecture & Scaling, Monetization & P&L Management, Data-Driven Product Strategy, Machine Learning & Personalization, Cross-Functional Leadership.

Experience

PhonePe

4 years 3 months
